Website: [www.augustineventures.com](http://www.augustineventures.com)

**Description**

An advanced junior gold exploration company that has earned in a 30% interest in a property located in "brownfield" site, a former gold camp in and around the Town of Wawa. The property, the Wawa Gold Project, consists of 2,426 hectares of patented claims plus 2,912 contiguous hectares of crown claims. The patented claim block hosts a pit constrained inferred resource of 1.1 million ounces of gold at 1.7 g/t (NI 43-101), referred to as the Surluga Deposit. Recent exploration work has identified five more shear zones to the west and east of the Surluga Deposit, indicating it is part of much broader gold system referred to as the Wawa Gold Corridor, open at both ends and at depth and all located within the property. Augustine and Red Pine Exploration (RPX on TSX-V) together own 60% of the deposit with an option to earn up to 75% of the project.
